RECOMMENDATION LETTER FOR BRYAN RUSSELL UGBOSU

I write in respect of BRYAN RUSSELL UGBOSU who has asked me to forward a recommendation letter to you with respect to his provisional admission into your institutions of high repute; I have known him for six (6) years as his Vice- Principal in close rapport with him during his educational studies in our institution (Standard International College, Warri, Delta State).

I am very aware of Russell education and career goals as a student; he was painstaking and consistent in both academic and co-curricular activities like debates and science quiz Competitions. I must state that he was a very competitive student in high school and this reflected in her performances at the end of every academic year. Graduating with high grades was of no shock as he was always determined to excel.

He is not only studious but very kind and ready to assist others in times of need. He is a student with high capacity for imaginative and creative thinking.

I have supervised and created a formal relationship with this very respectful and life driven young man whom I have also come to respect his zeal and dedication to learn and work. He was always excellent in all his academic fields and also activities (debate club, JET club, Mathematics club and other exciting activities).

I am positive and have full faith in him that he will demonstrate same positivity and diligence in your institution and will make your institution proud of having alumni like him just as I am proud of him.

Feel free to contact me for additional information.
